

## Children's books available for purchase!

These rhyming picture books introduce children to building and HVAC engineering through the various outings of a curious young girl, Lucy. Help her find unique solutions to STEM problems and see if you'd like to be an engineer too!

## Learn more about STEM K-12 Resources

Our future depends on the next generation of Science, Technology, Engineering, and Math (STEM) Leaders. We encourage members to get involved with local school systems and education programs in your area to promote STEM.

Visit [ashrae.org/ashraek12](http://ashrae.org/ashraek12) to access free resources such as STEM kits for classroom visits, career videos from Society, posters, brochures and logo items for local outreach activities!

Earn PAOE points for your chapter for any K-12/STEM activities! Chapters can also earn the K-12/STEM Leadership Award if each of the Chapter's Officers and its K-12/STEM Coordinator or Student Activities Chair participate! ASHRAE members can also get recognized through the Youth Outreach Award which is awarded during the Plenary Session of the Annual Meeting.
