

AN INVITATION TO SPONSOR

2025 Buildings XVI International Conference

December 8 – 11, 2025 · Clearwater, FL

The 2025 Buildings XVI International Conference will be held December 8-11, 2025 at the Sheraton Sand Key in Clearwater, FL. The expected attendance for this conference is 225.

Inaugurated in 1979, the "Buildings Conference" takes place every three years allowing time to develop new research and technology applications and to document the findings. Attendance is international and draws heavily on the advanced technical knowledge of all our global experts.

The scope of the conference is related to the latest research and development in the field of Thermal Performance of the Exterior Envelopes of Whole Buildings. Also, the scope includes a focus on residential buildings. The conference presents a great opportunity for product manufacturers, research organizations, academia, builders, designers, architects, and consultants to discuss their work achievements, interest, and awareness of buildings issues, and to provide solutions and insight into some of our major building envelope problems.

The conference organizers are pleased to offer several sponsorship opportunities to engage industry participation.

All sponsors will have their company logo and name on the event flyer, the conference web site and recognition during the conference. A summary of the specific benefits of each sponsorship level is provided below.
