FOREWORD

Draft Addendum 90.1ai – Publication Draft. This proposed addendum clarifies Table 9.3.1.1 with regard to building type by providing a footnote for multiple listed spaces. Examples of multiple listed spaces might be a University Administration Building which could be considered an “office” or a “School/University”. A Religious Dormitory could be considered as a “Dormitory” or a “Religious Building”. In the examples above the intent is to have the specific use of “Office”, and “Dormitory” apply.

Addendum 90.1ai

TABLE 9.3.1.1 Lighting Power Densities Using the Building Area Method (I-P and SI Editions)

Building Area Type¹ – Add a footnote to read:

¹ In cases where both general building area type and a specific building area type are listed, the specific building area type shall apply.
